Now I'm Following You (Part I) - Madonna

Let's dance, you can do a little two-step

I'll go anywhere that you step to, 'cause I'm following you.

My feet might be falling out of rhythm,

Don't know what I'm doing with them, but I know I'm following you.

Unlikely as it is to me, on the floor with two left feet

Let's boogie woogie till our hearts skip a beat, but who's counting?

Encore, once again around the dance floor

Romance is in the picture too, now I'm following you.

Unlikely as it is to me, on the floor with two left feet

Let's boogie woogie till our hearts skip a beat, but who's counting?

Encore, once again around the dance floor

Romance is in the picture too, now I'm following you.
