He's a pretender, he knows just what to say  
He's a pretender, yeah, you meet him every day  
He's a pretender, that fish that got away  
He's a pretender, why'd I fall in love?

It was so strange the way he held my hand  
I wanted more than just a one night stand  
He had a way of makin' me believe  
That he was mine and that he'd never leave

I know that I should take my friend's advice  
'Cause if it happened once, you know it happens twice  
If there's a chance then I know I've got to try  
I'll make him dance with me, I'll make him tell me why

He's a pretender  
He's a pretender

I'm not afraid to fall a hundred times  
And I'll believe in all your silly lies  
I'd like to think that I could change your mind  
Don't say that I am blind, I know all about your kind

He's a pretender, you meet him every day  
He's a pretender, that fish that got away  
He's a pretender, why'd I fall in love?

I like the way he moved across the floor  
And when he danced with me I knew he wanted more  
But in the dark things happened much too fast  
I should've stopped him then I knew it wouldn't last

I know that I should take my friend's advice  
'Cause if it happened once, you know it happens twice  
If there's a chance then I know I've got to try  
I'll make him dance with me, I'll make him tell me why

I'm not afraid to fall a hundred times  
And I'll believe in all your silly lies  
I'd like to think that I could change your mind  
Don't say that I am blind

You lied you lied, you lied you lied  
You lied you lied, you lied you lied  
You lied you lied, you lied you lied  
You lied you lied, I know all about your kind

He's a pretender  
He's a pretender  
He's a pretender, why'd I fall in love?

He's a pretender, yeah, he knows just what to say  
He's a pretender, yeah, you meet him every day  
He's a pretender, that fish that got away  
He's a pretender, don't know how he got that way

He's a pretender  
He's a pretender, he's a pretender  
He's a pretender, that fish that got away  
He's a pretender, why'd I fall in love?
