Don't sit there like some silly girl  
If you wait too long it'll be too late  
I'm not telling you something new  
There ain't no time to lose  
(No time to lose)  
It's time for you to celebrate

So get down, beep beep, gotta get up outta your seat  
(Get up, little girl)  
Get down, beep beep, gotta get up outta your seat  
(It's time, your world)  
Get down, beep beep, gotta get up outta your seat  
(Your life, your choice)  
Get down, beep beep, gotta get up outta your seat  
(It's time, live it up)

On and on, on the beat goes  
On and on, on the beat goes  
On and on, on the beat goes  
On and on, on the beat goes

On and on, on the beat goes  
On and on, on the beat goes  
On and on, on the beat goes  
On and on, on the beat goes

You don't have the luxury of time  
You have got to say what's on your mind  
Your head lost in the stars, you'll never go far  
(No time to lose)  
It's time for you to read the signs

So get down, beep beep, gotta get up outta your seat  
(Here comes my hand)  
Get down, beep beep, gotta get up outta your seat  
(Take it, you can)  
Get down, beep beep, gotta get up outta your seat  
(The time is now)  
Get down, beep beep, gotta get up outta your seat  
(I'll show you how)

On and on, on the beat goes

On and on, on the beat goes  
On and on, on the beat goes  
On and on, on the beat goes

On and on, on the beat goes  
On and on, on the beat goes  
On and on, on the beat goes  
On and on, on the beat goes

Say what you like  
(Say what you like)  
Do what you feel  
(Do what you feel)  
You know exactly who you are  
(You know exactly who you are)

The time is right now  
You got to decide  
Stand in the back or be the star  
(Won't sit in the back)

Get down, beep beep, gotta get up outta your seat  
(Here comes my hand)  
Get down, beep beep, gotta get up outta your seat  
(Take it, you can)  
Get down, beep beep, gotta get up outta your seat  
(The time is now)  
Get down, beep beep, gotta get up outta your seat  
(I'll show you how)

(On and on)  
I can't keep waiting for you  
(For you)  
Anticipating that, you've no more time to lose  
(For you)  
I can't keep waiting for you

Here's a impromptu I want you  
Now I'm gon' to tell you what I want to do to you  
Your girlfriend she wants to, beautiful  
Just flew in from Paris, voulez vous?

In the city that don't snooze  
Schmooze amongst the Who's Who's  
And I use my celeb to get this one home  
Why everything that feel so good gotta be so wrong?

Gimme room now  
I'm like a vampire on the full moon now  
And I don't know about you now  
But I think I wanna try something new now

See what it do now

And when you sat down  
Uh, 'cause you was losing your breath now  
Uh, 'cause you be doing it to death now  
She be doing E to F now, what's left now?

Mr. West now  
Can you get anymore fresh now?  
I think I just did, just now  
Talking my shit, that's how  
I'm a professional

I admit that  
The flashing lights show I live that  
Fame is a drug, wanna hit that  
'Cause I know exactly where to get that  
Did you get that?

Get down, beep beep, gotta get up off of your seat  
Get down, beep beep, gotta get up off of your seat now  
On and on, the beat goes  
On and on  
'Cause I know exactly where to get that  
Did you get that?

Let's go, beep beep, gotta get up outta your seat  
(The beat goes)  
Get down, beep beep, gotta get up outta your seat  
(The beat goes)  
On and on, the beat goes  
On and on, the beat goes

On and on  
On and on  
On and on
