Hard to bring out some things with a deadend mind  
Oh, don't you know there is no credential  
Oh, not at all essential  
Hard to bring out small things with a deadend mind  
Oh, you didn't feel the sea or invent the moon  
How did it all occur so soon

So I finally fall behind  
With a deadend mind  
I wasted all this time  
With a deadend mind  
A deadend mind  
A deadend mind

Hard to come up with some things with a deadend  
mind  
Oh, don't you know it is no credential  
Oh, not at all essential  
These small things  
Like your sealed body and your sealed face  
Oh, not at all essential  
Oh, not at all essential, so

So I finally fall behind  
Fall behind with a deadend mind  
Oh, I wasted all this time  
With a deadend mind  
A deadend mind  
A deadend mind

Deadend mind
