I still have the scars  
But the knife is gone  
I still dress to kill  
And I jump like a leopard  
But I wouldn't know where to run  
Oh I still fear for our defeat  
Even though I know all of our battles were won  
So where are you?  
Who had me doing what I do  
It was never enough fun  
But it was better when we were two  
I need a helping hand  
I need a trigger, I need an aim  
I see your new mercenaries  
I see them leaning on the steel  
I see the black cats and the buckets of blood  
But it doesnt seem right nor real  
I see dealers in the street  
And I ask them for ammunition  
But I just can't land a deal  
So where are you?  
You had me doing what I do  
Nearly all my friends are gone  
And you're gone too  
They say my arm has gone limp  
And frankly I can't tell what I feel  
No, I'm not afraid  
This is what I've been trained for  
No, I'm not afraid  
You know I've walked alone before  
And I can do it once more  
No, I'm not afraid  
But my opponents, they are worthless  
And I dont care to go to war

So where are you?  
You had me doing what I do  
I could easily stand alone  
But I wanna stand with you  
Oh, baby  
Couldn't we be the killer couple  
That we, that we were before?
