Old man prey
Please tell me
How deep might these seas be
On seashores of promise
I'm frozen in this moment

Into the sea
Make love
Make waves

Stand by me Sweet lady
We go in and freely
We give up our senses
Our walls and defences

Into the sea
Make love x2
Make waves

And if the sharks on the prowl
The whale has stranded on the beach
Know that friendly shore
Is always within reach
Into the sea

Old friends in dark places
Old scars on their faces
One good friend
Makes up for
Ten bad ones
Tenfold

Into the sea
Make love
Make waves
