You don't know where you going
And you don't know where you've been
There's a billion lights of shining
And you're somewhere in between
Look away look away
Look away Lucifer
Look away look away
Ooh look away Lucifer now

You greet me as a brother
As you come in from the street
There's a reason you have come here
There's a reason that we meet
Look away look away
Look away Lucifer
Look away look away
Ooh look away Lucifer now

You come looking for a handdown
And you said that you're alright
But I can see that you're enslaved
Among the legions of the night
Look away look away
Look away Lucifer
Look away look away
Ooh look away Lucifer now

You look over my shoulder
And a tear comes to your eye
Then you thank me for the money
And you kindly say goodbye
Look away look away
Look away Lucifer
Look away look away
Ooh look away Lucifer now

It's a selfplaying piano
And it's so hard to stay afloat
If you wanna make a living here
You're gonna need a bigger boat
Look away look away
Look away Lucifer

Look away look away
Ooh look away Lucifer now

Now I have tried to help you
And I hold this to be true
But I can't just be breathing
Out of sympathy for you

That's a hard one to be hearing and
It's hard on me to say it
But it was you who entered in this game
And now you alone must play it

Yeah that's a hard one to be hearing and
It's hard on me to say it
But it was you who entered in this game
And now you alone must play it

You still walk among the living
But there's a place you rather be
With a shepards of?arcadia?
And your home across the sea

Look away look away
Look away Lucifer
Look away look away
Ooh look away look away

Look away look away
Look away Lucifer
Look away look away
Ooh look away look away
