Closer, move in closer  
Closer now than  
Than ever before  
I doubt it that you can survive  
So far from your trenches and your friends  
This is where competition starts and  
And all that ends

I sense a lot of tension  
Loose, loose  
Pull out your arsenal  
Dance

Step into this room and dance for me  
Step into this room and dance for me  
Come on, lady, dance for me  
Come on, come on, dance for me  
Step into this room and dance for me

By now we should know the music and the steps  
Oh, me, I never asked, I never set you up  
A little something for me?  
A little something thrown back at me?

This is the floor, these are the rules  
These are the moves  
This is the room in which we dance  
Close the door, say you will dance

Step into this room and dance for me  
Step into this room and dance for me  
Come on, lady, dance for me  
Come on, come on, dance for me  
Step into this room and dance for me  
Step into this room and dance for me  
Come on, come on, dance for me  
Come on, come on, dance for me

Step into this room and dance for me  
Step into this room and dance for me  
Come on, lady, dance for me  
Come on, come on, dance

Step into this room and dance for me  
Come on, come on, dance  
Step into this room and dance for me
