How cold can a heart become
Before it crumbles
Or decides to stay numb

I know what it's like to feel cold
I don't wanna die alone

'Cause I can't stand feeling nothing
I can't stand feeling old
I can't stand standing for nothing
When standing up is all I know

So why waste another day
Turning our backs
And walking away

I wanna feel everything
I wanna grow in every way

Because I can't stand feeling nothing
I can't stand feeling old
I can't stand standing for nothing
When standing up is all I know

I can't stand feeling nothing
I can't stand feeling old
I can't stand standing for nothing
When standing up is all I know
