Come dance with me or I'll explode
The reckless side is now shining through you
So shake your hair and do what you do
And I'll break my legs to keep up with you

Cause I don't like being alone
Unless I feel alone
Dancing with you is everything
I know that it can't be wrong
Steady after the wine
Time after time we arrive
To watch the light shine through us
Like ghosts as the candles burn as low as they go

Spinning until we hit the floor
Pain has never felt so good
Light our selves up to crumble in
Just to never let it end

Cause I don't like being alone
Unless I feel alone
Dancing with you is everything
I know that it can't be wrong
Steady after the wine
Time after time we arrive
To watch the light shine through us
Like ghosts as the candles burn as low as they go

So hold me close, to keep me close
Cause I don't like being alone
