Visit "[Heart Beat](#)" on MotoLyrics.com

Werewolves howl, vampires bite
Why'd I let you out of my sight
You shouldn't leave me here
All alone in your gloom

Too much time, nothing to do
All that I can feel, your heart beat
Heart beat

All alone in a crowded room
Feels like hard time in a padded [Incomprehensible]
I'm losing ground with every move I make
If I could just sit still, maybe, I wouldn't break

Oh, I can feel your heart beat
Yes, I can feel your heart beat

You're leaking from the corner of your eye
In your ache, too dark to ever dry

Oh, I can feel your heart beat
I can feel your heart beat

Falling around, falling around
Falling in and full of life
