Boy this place is nice  
Yeah, this place is really nice  
So many things in life we can't afford  
But isn't this the life â€¦  
So put a sign outside the door  
Here, let me get this chocolate off the floor  
I don't want to see any of this go to waste  
We may not get too many more  
All I'm asking you â€¦... is  
~ leave the window open (x2)  
I just wanna feel your love  
~ against the skyline, and the money, and the people  
down below  
So leave the window open  
Well life is only so long  
Don't let it rub you raw â€¦.  
Nah, don't let it rub you raw like a bad massage for  
something that you never even done  
I don't want to talk  
No, I don't want to go for a walk  
I just want to lie here in this bed and enjoy this moment  
with all the lights and the television on  
Hey, all I'm asking you â€¦... is  
~ leave the window open (x2)  
I wanna feel the breeze when it's blowing through your  
hair as I am making love to you  
So,  
~ leave the window open (x2)  
I wanna take in this view, smell the streets below, and  
live this life before it's gone  
Honey,  
~ leave the window open,  
Please,  
I don't want this day to end  
I don't care if it rains  
Just leave it open
