[Intro]

Uh uh

Get Money all over again

Get Money all over again

Get Money all over again

Get Money all over again

'99, Double Up, uh uh

Yo, when you look in my eyes, what chu see?

A sincere man or just a bunch of G

Why second guess, the brotha would last

They took a whole clique from the George and the Ave'

The booties in Aruba, boats and hoover crafts

So if Biggie could love the dough, Murda could love the cash

Butter Benz, gave the Tahoe to my other half

If she got the Benz then guess what mami have

Why dread it, tell the waiter too much ice in the crib

Blink's so drunk, he think we singing "Nights Like This"

He say when he grow up he want a life like this

Sleep all day and plus you want ice like this?

While girls throwin' head I ain't even touch dice

I ain't trust Don King, how my trust Mike?

I date bull daggers, ain't I don't trust Dykes

Need a cleaner nina, cuz they don't bust right

I ain't stingy, when everybody see the plush life

Buy rims before the benz so I look just right

Girls love me try to get the girls that love Mike

All I need is cup of Kool-Aid, I got enough ice

[1 - Cheri Dennis]

All I ever wanted was you for me

Cuz that nigga who I'm with don't give a fuck about me

And all I ever wanted was to be there for you

Cuz that girl who you with don't give a fuck about you

You unhappy, and I can see it when you cry

You look like your life has just been minimized

I ain't your man, I'm your man on the side

You just call me when you plan to slide

And if you ever feel like you wanna creep

All you gotta do is just give me a beep  
Only way I won't call you back less I'm asleep  
Gettin' my money or layin' it wit' a piece  
We hit the block, shop alot  
She see her man, but she don't wanna drop the top  
And you know that don't really mean a thing to me  
Can't no girl ever run game with me  
You know Mase, got a lot of places to be  
Spots in Ohio, kick in NC  
And I be wit older dudes and know the rules  
So if a man pick up I know what code to use

[Repeat 1]

If you cheat on me, I'mma cheat on you  
If you don't speak of me, I won't speak of you  
I'll tell you now, we wait about a week or two  
Then I know what we could do  
We could just get our food and stay in  
Cuz people on the block is hatin'  
They know your man and know we datin'  
So we gotta do this just to stay friends  
(OK) Amen

[Both]

I lay back, I zone  
You say that it's on

[Mase]

Then the girl try to snatch the phone  
So I knew I was happier home

[Repeat 1 until fade]
