Is that your song I hear playing?
'Cause I'm feeling it too
Does it take all direction
Control over you

When you sing do you slip away?
Back to that place in your mind
Let our love be the one thing
You won't leave behind

Yeah
Rewind and play
Time to go backwards again
I'm moved by the way
All the notes in time make a melody
Hold me and sway
Into the moment we share
Where we can stay
So attached to the memory

How I long just to hold you
And see you let go as we dance
I know you're reminiscing
Through our romance

Can you hear the piano
And the pulse of the drums
Does to the tune in the group
Bring us back to our love
Oh come and find it honey

Rewind and play
Time to go backwards again
I'm moved by the way
All the notes in time make a melody
Night into day
Can move onward from here
Where we can stay on and on
In time to the memory

Oh, I know you can feel it
Let it take you there

Ohhhh

Rewind and play
Time to go backwards again
I'm moved by the way
All the notes in time make a sweet melody
And night into day
We have been captured again
A new time and place
To make a million new memories
