[This hidden track appears before the first track by rewinding to -01:33.]

Losin' control, can we meet?
I'm all out of care.
There is a cloud between the two of us,
A static snare.

Last transmission! (Last transmission!)
Last transmission! (Last transmission!)

Where am I going? Where have I been?
Do you have my position?
You're right, it's harder. This is how it ends.
Will it break in transmission?

(You're right) Last transmission!
(Only you're right) Last transmission!
(Do what you begin) Last transmission!
(In your life) Last transmission!

We take control.
Can you read me?
