Dashing through paradise  
So polite in what I say  
Lost in the edge I'm in  
I want a world to give away

I know what's mine  
You'll learn what's yours  
I know what you want to see  
You scratch my back and I grow claws  
Falling in love awkwardly

Dancing in my own good time  
My words stick out of your face  
If you're not feeling so weak today  
Somebody will take your place

I know what's mine  
You'll learn what's yours  
I know what you want to see  
You scratch my back, I grow claws  
Falling in love awkwardly

Up, on

Dashing through paradise  
So polite in what I say  
Lost in the ache I'm in  
I want a world to give away

Dancing in my own good time  
My words stick out of your face  
If you're not feeling weak today  
Somebody will take your place
