Sunlight on the water, reflecting in your eyes
You smiling move towards me, under those blue
skies

Wait deep in the water, you lifting up your hand
No sun was ever stronger, a golden wonderland
Here in the city, just endless gray
No rest, no silence, as you fade away

I try to find you in all my dreams
Lost illusion, never as it seems
Sunlight fills my mind you're never far away
Oh how I long for you

Ask me to stay with you forever and a day
I'll run to you
I'll run to you

Now time just stands frozen
That smile fixed on your face
Reflections on the water

Two figures lost in space
Here in the city I can find no sleep
I feel so helpless, I am in too deep
I've tried to find you down all the days
You come to haunt me, take my breath away

Sunlight fills my mind you're never far away
Oh how I long for you

Ask me to stay with you forever and a day
I'll run to you
I'll run to you

Now sand and sea still touch me
Upon that distant shore
You holding out your silence

To keep for evermore
Here in the city, I can find no sleep
And I feel so helpless, I am in too deep
I've tried to find you down all the days
And you came to haunt me, take my breath away
To take my breath away

To take my breath away
To take my breath away
To take my breath away
Holding out your silence to keep for evermore...
Take my breath away...
