No more tried so hard to love you  
No more painting pictures of you  
No more take what I can get  
No more I'm not ready yet

I'm gonna plug this wire  
Into your brain  
You will forget my face  
You will forget my name

I need a one-touch hand held tape recorder  
And a triple-X rated performer

No sex in your drums

Einki sex Æ tÃnum trummum  
No sex in your drums

No more break my back to keep you

No more spend my money to feed you  
No more calm down compromise  
No more let's be civilized

Forget your mouth  
Forget your heart  
I'm gonna take this wire  
And chew it apart

I need a one-touch-handheld tape recorder  
And a triple X-rated performer

No sex in your drums

Einki sex Æ tÃnum trummum  
No sex in your drums  
No sex, no sex, no sex, no sex  
No sex in your drums
