That's the power of light

Light [light] energy of light [light, light]
Shining through the night [night, night]
Full of energy [light]
The light that shines on me

Light [light] precious gift for all [light, light]
It will keep me warm [light, light]
Conquer all my fears [light, light]
Color of my tears

Energy of light
All I want from you is energy,
Energy of light
A creation of the light in me
Tell me won't you tell me
Can you see what I can see
Tell me won't you tell me

Is the power of the light in me

Energy of, energy of, energy of light
Energy of, energy of, energy of light

Light [light] energy of light [light, light]
Illuminates my mind [light, light]
So my heart will glow [light]
I'll never let it go

Light [light] guide me through the night [light, light]
Make me feel so right [light, light]
You light up my love [light, light]
I just can't get enough
