Face the truth, see what's happening to our world  
It's time to react, open your eyes before it's too late  
Protect the forests, the seas and the air  
The planet is warming, the ice lands are melting  
Madness of mankind must stop, we must respect the  
earth

Lost in a million sinners world? I am the fire of hell  
Lost in a million sinners world? I am temptation, you're  
damned  
Don't play with fire; don't be a fool, or  
Your soul will burn in a lake of fire  
Don't make your rules, don't cross the line, or  
Your soul will burn in this million sinners world

I feel the pain, I see the signs, the end is near  
If we don't change, our children's future will be death  
Try to preserve mother Gaia from dirt,  
Pollution's gas, toxic rain is killing her soul  
Madness of mankind must stop, we must respect the  
earth

Lost in a million sinners world? I am the fire of hell  
Lost in a million sinners world? I am temptation, you're  
damned  
Don't play with fire; don't be a fool, or  
Your soul will burn in a lake of fire  
Don't make your rules, don't cross the line, or  
Your soul will burn in this million sinners world

Lost in a million sinners world? I am the fire of hell  
Lost in a million sinners world? I am temptation, you're  
damned  
Don't play with fire; don't be a fool, or  
Your soul will burn in a lake of fire  
Don't make your rules, don't cross the line, or  
Your soul will burn in this million sinners world

A million sinners world, a million sinners world!  
A million sinners world, a million sinners world!
