know me,
thought this,
plastic to my ear

start to,
guage you,
distance stratens everything

always alone,
never apart,
i can hear you breaking,

always apart,
never alone,
but i know your breaking up (oooOH)
your breaking up
(oooOH)
your breaking up
breaking up

suddle hints
that you,
dropped in conversation
showing me the truth
of this,
dead-love revolation

always alone,
never apart,
i know signals fading

always apart,
never alone,
isnt that what you said (oooOH)
your breaking up
(oooOH)
your breaking up
breaking up

i'll shed no tears for another this
ending i'll be the author and

leave you far,
far behind

you led me into the slaughter and,
left me with nothing to offer but memories
take them all a-WAY!!!

i'll shed no tears for another this
ending i'll be the author and,
leave you all far behind

you led me into the slaughter and,
left me with nothing to offer but memories
take them away (oooOH)
your breaking up
(oooOH)
your breaking up
breaking UP!!!
your breaking up
(oooOH)
your breaking up
breaking up
