

## Chumbawamba "Act With Mother"

Visit "[Act With Mother](#)" on [MotoLyrics.com](https://MotoLyrics.com)

M spells man, K spells kind, could somebody tell me is  
man kind?

Manking is saying, gotta say goodbye now, gotta say  
goodbye to mother earth

I mean, how could I ever say that to her?

She's my mother, and I love her, there's no other,  
mother earth, mother earth

I used to watch, watch with mother, I grew up with her

Now I'm grown up, I stand on my own two feet, but  
that's no reason to forget her

By acting with mother not against her

First second and third worlds can help each other

By sharing the load, we can bear the burden

By working together we can replant the garden

Mother nature can be a right bastard at times, but I

reckon she's a whole lot cleverer than mankind. He

might have more experience, especially in apathy. Well

ask him or ask yourself, 'War, poverty, death, rape,

and violence on our streets?' And he'll look at you

blankly and say, 'Mindless'. Man made catastrophe and

it's happening now, today, so we're right up shit creek

without a paddle, without a boat even. Question, what

are full of holes yet hold much water? Answer, people.

People need each other, not money, not packaged shit,

we need each other.

How to be nice to each other?

How to talk to each other?

How to live together again?

I reckon, peace means learning to live together again
