Open your eyes
Time to wake up
Enough is enough is enough is enough
Give the fascistman a gunshot

Trying an trying again to get this damn thing done
It cant done
Come kill the fscist with a gun
cos its stoping us from unity
We cannot see reality
Just vanity insanity fusion cannot stand it see
No man fascist man will ever get me outta the land
So understand fusion plan to stop them with a bang
We sang and sang to make the people all unite
Not fight but fight because the leaders dont think right
You burnt us in the part you know it wont happen again
So black and white take a stand and all try to defend all
of the people and the children who are living in the past
Just blast and blast dont make the fascist man last

Open your eyes
Time to wake up
Enough is enough is enough is enough
Give the fascistman a gunshot

On and on and on you the feelings so strong
So long
Its wrong
Im telling you its wrong
Destruction confusion and blaming it on the colour
I wonder in horror cos the people start to follow
All the leaders and the rulers who are putting up the
fence
Its dens immense and you say youre talking sense
Bull bull I want to say it full
But people on the radio you know will make a pull
So I try to tone it down to make the whole world know
that the language of my violence will proceed in my
show
Flow flow to make the fascist man know
That unity is here and unity will grow

Open your eyes
Time to wake up
Enough is enough is enough is enough
Give the fascistman a gunshot
