The blanket shit coverage we get on TV
Sells us paradise, buy buy buy buy buy it
They steal our lives and sell them back to us
As one big happy contraceptive pill-popping party
Based on the ad-man's philosophy
That total self-indulgence equals total freedom
Total self-indulgence equals total freedom
Like freedom from involvement,
Freedom from concern
Freedom from responsibility
Freedom from love
Freedom from love
Freedom from love
Freedom from love?
