

Chumbawamba "Last Taxi Ride"

Visit "[Last Taxi Ride](#)" on MotoLyrics.com

One last taxi ride before we die
'This is destiny, she cried
Ride so carelessly around the avenues
Watch the lights, the fairy lights
And all at once a thousand conversations
All at once we said all we want to say
One last taxi ride before we die
'This is destiny,' she cried
So sleep, dear friend, wake up and in the end
I must be silent now the city streets are paved in blood
Watch the world come in they don't know where we've
been
Around the avenues a million miles
One last taxi ride before we die
'This is destiny,' she cried
And all at once a thousand conversations
All at once we said all we want to say
One last taxi ride before we die
This is destiny
