Here's the devil in disguise
Hits me right between the eyes
Like a thief out of the night
Someone taught him how to fight

(Chorus)

Love can knock you over
Love can knock you over
Tongue-tied and crucified
Cross my heart and hope to die
But I'll get up again
And I'll fall down again
And I'll get fooled again

(Repeat chorus)

Beaten by the sucker punch
And I don't care about getting' up
You can count me out this time
And I won't mind
So used to useless metaphors
Lost the battle, won the war
Words to fight another day
Pass away

(Repeat chorus)
