Don't respect your choice of opinion  
If your choice is a racist system  
'Freedom of speech'--it's a worthless cause  
As long as freedom is defined by laws  
We support all forms of resistance  
Against this racist system  
You tell us to sit and wait  
You say we have to beat the racists in open debate  
You say it's not democracy  
Well that's OK by me

We support all forms of resistance  
Against this racist system  
They've got police protection  
They've got the boss's investments  
We've got ourselves and each other  
And not much time...
