Don't respect your choice of opinion
If your choice is a racist system
'Freedom of speech'--it's a worthless cause
As long as freedom is defined by laws
We support all forms of resistance
Against this racist system
You tell us to sit and wait
You say we have to beat the racists in open debate
You say it's not democracy
Well that's OK by me
We support all forms of resistance
Against this racist system
They've got police protection
They've got the boss's investments
We've got ourselves and each other
And not much time...
