Loud noise hear it could be searing
Distant at all times
Echo could be said, it could be searing
Distant at times

An ear, an ear, an ear

Loud noise hear it could be searing
Distant at all times
Echo could be said, it could be searing
Distant at times

An ear, an ear, an ear can hear

Loud noise hear it could be searing
Distant at all times
Echo could be said, it could be searing
Distant at times

Loud noise hear it could be searing
Distant at all times
Echo could be said, it could be searing
Distant at times

Distant at times, distant at times
Distant at times, distant at times
