Stick a message in my mind
I would open any time
Open up to see you
Any time

You're living in a hotel
Guarded by a camera
And I can never see you now

Radio and it's so hard to reach you
Radio and it's so hard to reach you

I've been waiting here
For so long
I'm in this room
And you're not

Hurry up and meet me here

Hurry up now
Before the light runs out
And it's running

Radio and it's so hard to reach you
Radio and it's so hard to reach you

Hurry up and meet me here
Hurry up now
Before the light runs out
I'll be running

Radio and it's so hard to reach you x4

Hurry up and meet me there x4
