It's only circumstances
I know it gets so heavy
I've always been too lucky
You give me something I need
You give me something I need
Don't give it away X4
You are so unconvincing
And you are truly evil
Quit asking me for favors
You're taking something I need

Don't give me something I need
Don't take it away (Give it away) X3
Don't take it away
Don't take it away X4
Don't take it away (Don't take it away) X3
Don't take it away
Don't take it away X2
