Slow down the pace  
I have never known me this out of place  
If stupid acting dumb  
Is this shape of things to come  
And I add up that sum  
Then this is where I can't get back from

Take my hand, I will follow  
Only you can slow this down  
Take my hand and I will mellow  
'Cause only you can hold me like a tourniquet  
And make me stay here with you

No, ego left to bruise  
At least there's something good in most bad news  
'Cause I just don't want to cruise  
With anyone of all the young dudes  
'Cause round for round  
Only uncool will travel on gravel ground

So take my hand, I will follow  
'Cause only you can slow this down  
You take my hand and I will mellow  
'Cause only you can slow this down  
'Cause you can slow this down

Take my hand, I will follow  
'Cause only you can slow this down  
Take my hand and I will mellow  
'Cause only you can hold me like a tourniquet  
Make me stay here with you
