Beyond the sea of faces, amidst the staring eyes
despite distance, time and places, is a fear we can't
disguise

Trying to remember, a childhood memory
The echo of the voices, I can hear you calling me

How was I to know so long ago
you would not be here, to pick me up when I'm down
and all before my life is gone I will try to understand
The ending I fear is my own

[chorus]

Will I see you again in the afterlife, in the heavens high
above?

Will you remember me in the afterlife, will you show me
where to go?

and I'll never understand, until I see you again in the
afterlife

Will I see you again in the afterlife, will you recall my
name?

you were all that I know and I'm never letting go
you're forever in my heart and in my soul

[chorus]

Can't fight the sadness and regret,
I'll never know how to show you I care
all of the words I meant to say
now I'll have to tell some other way

[solo]

[chorus]

Can't fight the sadness and regret,
I'll never know how to show you I care
all of the words I meant to say
now I'll have to tell some other way

Will I see you again, in the afterlife.....
