Matter of Survival By Magnum.

Tell me how long you will take
Trying to make up your mind
Maybe it's already too late
I'll just be left behind
For right or wrong
Bayby I still hold on
Don't let it burn down in flames
It's a matter of survival
A matter of survival that we're apart
That's all we live and die for
I wish someone would tell it to your heart
So scared when I walked to your door
I saw you turn out the light
I can't take this hurt anymore
I shout it out to the night
Living without you ain't living at all
Tell me how do I get by ?
It's a matter of survival
A matter of survival that we're apart
That's all we live and die for
I wish someone would tell it to your heart
I walk the streets at night
I feel your spirit deep inside
It comes with the darkness
Stay till the light
I gotta face it, there's nowhere to hide
It's a matter of survival
A matter of survival that we're apart
That's all we live and die for
I wish someone would tell it to your heart
>From the L.P./Cassette "Goodnought L.A
