Last night the great bird was steady in his bow

I have got my shit together and I am ready to go

Oh but the way Iâ€™ve been acting (x2)

Iâ€™d have to be lucky

Last night the grey moon

Climbed right down in this hole

How on earth did you get down here

He said you know, that still ainâ€™t clear

But I had my shit together

And I was ready to go

I must be doing something wrong (x3)

Iâ€™m gonna say this once for the both of us

Thereâ€™s a lot of people out there who you canâ€™t trust

Thereâ€™s a lot of people out there who canâ€™t trust us

Just get your shit together

Get ready to go

Everybodyâ€™s doing something wrong (x3)
