I never thought I'd feel so helpless
Somethin's happenin' to me
'cause every night feels like the longest
And every hour's eternity
'Cause I can't have you like I wanted to
I got nothin' without you

CHORUS:

So now I dream about you
I got arms around you
Yeah, dream about you
Ain't nothin' else I can do
I wanna be where you are
No matter near or how far
So now I dream about you
I never thought I'd feel defenceless
Nothin' mattered much to me
The sun goes down and I get restless
All those same old memories
'Cause I can't have you like I wanted to
I got nothin' without you

CHORUS

I know your touch, your look, your every word
Oh can you hear me baby
I want you back again into my world

CHORUS
