Pray for the day
This city's wall
Concrete for chains
Will crumble and fall
Pray for the day
On top of the world
Nothing breaks in
Cross after cross
They have to dig in
Where to begin
Remember at the border
When the blood ran like water
Murdered for escaping
While the world looked on shaking
On top of the world ...
They crowned you with pain
And emptied your head
Your rescuers came
And left you for dead
Now it has to be said
Remember at the border ...
And all across the land
The keys to freedom jammed
Remember at the border ...
Pray for the day ...
