"Breath Of Life"

Here we are again, always dream of places
Near & far, all those different faces
I'm gonna take it like a breath of life

Here we are again, we don't make much difference
Never start, pray for our forgiveness
Then we take it like a breath of life

2 X CHORUS:

From the wilderness all of us climb
Just a blink at the end of all time
Everyday watch the sun on the rise
Always lookin'
The moon & the stars in our eyes

So here we are again, like a dream unfolded
Every star, every theme exploded
Still we take it like a breath of life

2 X CHORUS

Keep burnin' bright, way beyond time
No shadows light up this long empty night

(guitar solo)

2 X CHORUS
