Ooh!

Love don't come easy, so don't treat it light
Remember there's two sides, you'll make it alright
No magic potion, there's no way to tell
Ooh, could be like heaven, might be like hell, baby

You're tempted to turn round, comes to us all
Moments of pleasure you're bound to recall
One bad decision, that's all it will take
Oh, something you treasured to something you break

Ooh, walking the straight line, hope it's the same with
you, baby
Walking the straight line, ooh, that's all that you've got
to do

Oh, yeah!

Baby, love don't come easy, so don't treat it light
Remember there's two sides, you'll make it alright
Yeah, there's no magic potion, ooh, no way to tell
Could be like heaven, might be like hell

Walking the straight line, hope it's the same with you,
baby
Walking the straight line, that's all that you've got to do

(Guitar Solo)

Babe, babe, baby!
Ooh, walking the straight line, ooh, hope it's the same
with you, baby
Walking the straight line, that's all that you've got to do

Ooh, walking the straight line, ooh, hope it's the same
with you, baby
Walking the straight line, that's all that you've got to do

Ooh, walking the straight line, hope it's the same with
you, baby
Walking the straight line, ooh, that's all that you've got

to do, hey!

Ooh, walking the straight line, ooh, hope it's the same
with you, baby
Don't go havin' a good time, oh, it's all that you've got
to do, yeah!

Walking the straight line, hope it's the same with you
Don't go havin' a good time, ooh, it's all that you've got
to do, yeah!

Oh, walking the straight line, yeah, hope it's the same
with you
Don't go havin' a good time
