Visit "[Right This Way](#)" on MotoLyrics.com

Right this way,
If you wanna make love to me every day.
You and I,
Get together in a state of constant high.
Make my day,
Convince me love will come our way,
And I'll stay.
I don't know why,
But right now you and me together's just a lie.
And is it worth a try?
I'd say and then I'd run away, goodbye.
Make my day,
Convince me love will come our way.
Light blue eyes,
But six foot four and thin like ice.

When spring arives...

Right this way,
If you wanna make love to me every day.
You and I,
Get together in a state of constant high.
Make my day,
Convince me love will come our way.
Light blue eyes,
But six foot four and thin like ice.
When spring arives.

Make my day,
Convince me love will come our way.
But six foot four and thin like ice.
When spring arives.
