

Magnus Uggla "Concrete Kid"

Visit "[Concrete Kid](#)" on MotoLyrics.com

Stuck in the middle of nowhere,
Fresh air can't get me out through this reelin'. (! ?)
If this is the break I don't need it,
So you can shove it and let me get back to my life.

A concrete kid in the country!
It's driving me crazy, I wanna get back on the streets.
A concrete kid needs the city,
I can't live without it, this message within me too deep.

I gotta get back where the noice is,
I just can't stand anymore of this peacefulness crap.
Everone looks like they're dreaming,
That's not for me Â– I like to live like a kick in the head

A concrete kid in the country!
It's driving me crazy, I wanna get back on the streets.
A concrete kid needs the city,
I can't live without it, this message within me too deep.

I took some advice and I tried it,
But now I know that the city is where I belong.
I need to live free so that side shows,
It's just the streets in my blood and my blood on the streets.

A concrete kid in the country!
It's driving me crazy, I wanna get back on the streets.
A concrete kid needs the city,
I can't live without it, this message within me too deep.

A concrete kid in the country!
It's driving me crazy, I wanna get back on the streets.
A concrete kid needs the city,
I can't live without it, this message within me too deep.
