Once I had a love of my own  
Now she's left me sad and alone  
She was the only girl for me...

Things were bright and gay  
The world was going our way  
Love was in our hearts  
But now we're far apart  
Love seems doomed...

We could have had a lifetime to share  
But the problems of young love  
Were too much to bear  
She was the one in a million for me...

Things were bright and gay  
The world was going our way  
Love was in our hearts  
But now we're far apart  
Love seems doomed...

Things were bright and gay  
The world was going our way  
Love was in our hearts  
But now we're far apart

Love seems doomed,  
Love seems doomed,  
Love seems doomed...
