One night a couple went for a drive
Went to the country both looking to score
Nice cool air
Wind blowing in their hair
Boyfriend owned an SUV
Drunk as shit
Stepped out to pee
Little that he know his gas was just siphoned
And they both we're about to be chopped to pieces
Pieces
Piece of glass through her face
Butcher knife stabbed him from head to waist
Serial killer on the loose
Finished them off with a noose
His hate for SUV's kept him from being free
His disgust for gasoline
Made him want to kill everything
