Trams coming in, there's wind from the sea
But I don't feel cold, it's not shivering me
And I thought I didn't like this city but I've changed

Pass the place where I lived in 2002
And I can see the square close to my old school
In the middle of Northtown, just feeling good
Did not think I liked this city,
Thought I, thought I hated this city but

Gothenburg I came back to you
Now you be nice to me, then I'll be nice to you
Gothenburg I thank you
You gave me someone to love, and I really owe you

Walk up to the hill, there is someone I like
He has those wrinkles close to his eyes
But they're not from crying, he laughs more than I
Did not think I liked this city
Thought I, thought I hated this city but

Gothenburg...

R. Kelly on the stereo, a boy is dancing
Around in the livingroom it's Monday morning
And I don't ever want to go home again
Did not think I liked this city
Thought I, thought I hated this city but

Gothenburg I came back to you
Now you be nice to me, then I'll be nice to you
Oh I'll be nice to you, I'll be nice to you.
