And I remember the first time that we held hands  
Oh I'd wish I could go back  
To that exact moment in time where the moonlight  
shines,  
Reflecting in your beautiful eye

I'd wish that this moment will never leave  
I'd wish that this moment will stay with me forever

And I remember when we sneak off to our hiding place  
In the autumn time, in the autumn sky  
We would lay there for hours and hours on  
And that's when I told her "I love you" 'til the very...

And we'll get through this... [x3] I swear!

Please don't leave now, stay with me somehow... Yeah!  
I swear!
