Oh, I know that life is hard enough  
For you to live without me  
You deserve to get all the things  
That you give to me

You see, I'm tryin' to figure out what I need  
I'm tired of makin' your heart bleed  
Let's face it some people just aren't cut out for this

I've never felt a love deeper  
But this mountain just, it get's steeper  
You know what I can't give, but I can commit to this

When 2000 comes, I'll be ready then for you  
I'll be ready for the sweet love you had in mind  
When 2000 comes, I'll be waiting here for you  
I'll be waiting with a sky full of space and time for you

I'm an ordinary girl with a screwed up mind  
You know the kind  
Condescending words aren't my way  
I'm just trying to find an answer for you

You see, somebody else is going to love you  
You see that I only need you  
There's somethin' twisted here that's stranger than  
fate

And they say the world will get better  
Without you, hey, what would it matter  
I don't need to hear no new age crap about love

When 2000 comes, I'll be ready then for you  
I'll be ready for the sweet love you had in mind  
When 2000 comes, I'll be waiting here for you  
I'll be waiting with a sky full of space and time for you

Before I walk away can you really say you're gonna  
miss me?  
I'm gonna miss you, yeah  
It's time to face the fact that were better off for now  
Just let go

When 2000 comes, I'll be ready then for you  
I'll be ready for the sweet love you had in mind  
When 2000 comes I'll be waiting here for you  
I'll be waiting with a sky full of space and time

When 2000 comes, I'll be ready then for you  
I'll be ready for the sweet love you had in mind  
When 2000 comes, I'll be waiting here for you  
I'll be waiting with a sky full of space and time for you

Somebody else is going to love you  
You see that I only need you  
There's somethin' twisted here that's stranger than  
fate

And they say the world will get better  
Without you hey what would it matter  
I don't need to hear no new age crap about love

When 2000 comes  
When 2000 comes  
When 2000 comes  
When 2000 comes
