I never remember feeling like this
Uh, yeah, yeah
Who ever knew that I will feel this way about you?
At times I wanna fly away, which is you
Club nights I don't wanna... without you
Cause everything seems a lot brighter cause of you
You know I deal with all the pressure from the world
So you're not afraid to always bring other girls!
This type of love is all the fun, and it's strange
I happy when I hear your name, do your thing, do your
thing!

Chorus:
Molly, molly, molly, molly
Molly, molly, molly, molly
I'm happy when I hear your name
Do your thing, do your thing!
Molly, molly, molly, molly
Do your thing!
Molly, molly, molly, molly

When the world... to get me down
Yes it did!
You put me right upon a cloud
So it seems
You know just how to treat me
Like a king
When I met you that Miami night up in...
I knew what kind of girl you were from the start
But you take me to another level, and it's hard
Never knew that you will...
When I'm with you, I'll be feeling good, swear to God!
Celebrate when we're all together, the champagne
I'm strong when you take away all the pain
... and it's strange
I'm happy when I hear your name
Do your things!

Chorus:
Molly, molly, molly, molly
Molly, molly, molly, molly

I'm happy when I hear your name
Do your thing, do your thing!
Molly, molly, molly, molly
Do your thing!
Molly, molly, molly, molly

Other thugs say they know you too
It's alright just as long as you're still my boo
In the night days when I'm really on... twice
Got me float, I don't touch the ground, I can fly!
Still rolling, let me go to... you and me
Hold tight so I don't lose you, so...
You... for a queen
Make a blind man see the heaven, he could read
Give me chills all through my body, can't explain
When you're gone, I can hear your voice in my brain!
This type of love is hard to find, and it's strange
I love it when I hear your name
Do your thing, do your thing!

Chorus:
Molly, molly, molly, molly
Molly, molly, molly, molly
I'm happy when I hear your name
Do your thing, do your thing!
Molly, molly, molly, molly
Do your thing!
Molly, molly, molly, molly
Do your thing, yeah!
