This is my town, this is my city now
This is my city now

This is my city, my city (x 3)
This is my city now.
This is my city, my city,
This is my city, my city
This is my city now.

Uh, yeah yeah
Uh another round for them real niggas
For four green a bounce fill nigga
Came up a crack in my hill figures
A one play break em bread then we real killers
Watching them girls on the pole again
Throwin? dollars falling deeper in the whole out there
And through my travels see the hoes I?m in
My homies gone, one day if we ever roll again
Running with my niggas running right or wrong
Trying to rack to find my past when I?ll rack my rose,
Kill it my city, get away from me,
Twenty brand in one night somebody?s great for me.

This is my city, my city (x 3)
This is my city now.
This is my city, my city,
This is my city, my city
This is my city now.

As we focus in and out of traffic, I can feel it
I?m tryin? to grab it, I can heal it
But tryin? to stab it, I can flip it,
Oh I can mack it, oh I could dip it,
Oh I could clap it, but I?ma face it
Real niggas with real faces, no tears
Ain?t that the pour three times, more years
I?m tryin? to chill pips, preachin? and I?m all ears
Mainly the sound city sending me bricks like oh...
True story I belong here,
This ain?t the song here, is just a real nigga speaking
And I promise I would never be weakened,

I got my niggas with me, nigga we cheatin?
Mafia, we cheatin?

This is my city, my city (x 3)
This is my city now.
This is my city, my city,
This is my city, my city
This is my city now.

Look the land that miss fits and the generist
Die and young from the same things it get too rich,
And oh, and oh man it?s a cold city,
When chicks f*ck you for the colds and you been the
shit
How many times I see the real face...
From dues going get their team on some screaming
shit,
Jesus piece that will low, pray they fear us
They say my city changed but we still us,
Yeah, still will, still powerful,
Still put a bigger building then with the towers fell,
Still spending on them hores, and like a...
The price on for my city I?m a winner wow.

This is my city, my city (x 3)
This is my city now.
This is my city, my city,
This is my city, my city
This is my city now
