Ft. Twigg Martin & Lucky Don

All L on my black mob, hopping out of that black all  
For that cash we blast off, big rockets like Nasa  
Want the world and I ain't asking for it  
Take mine's what daddy taught us  
Run upon them, that's how we on it  
Grab his head and put the Magnum on it  
Gone nigga, you gone nigga, your mama home, she  
moan nigga  
You slept on me, you wrong nigga  
Now watch your feet on my lawn nigga  
Gas them up and I burn them out  
My lifestyle, been heard about  
Keep killers that's word of mouth  
Niggas shoot if I point them out, mafia!

One time, the second time is gonna cost, cost me some  
money  
Hold a nigga one time, one time only  
Second time is gonna cost, cost me some money  
Telling me one time, one, one

Ok, â€¦ talking fake bills, real niggas on my side  
And the gods who a nigga faced, only time I know how  
fake feel  
Yeah, that stay real, save a hoe, how that cake feel  
Real talk, only play for keeps, in your park place like a  
state mill  
Bk where they grant me in the hood where they let that  
â€¦go  
When I scream bk, I ain't talking with a nutside bro  
That's real shit, shooters catching homies  
Riders wave through your hood and turn that shit to a  
tsunami nigga

One time, the second time is gonna cost, cost me some  
money  
Hold a nigga one time, one time only  
Second time is gonna cost, cost me some money  
Telling me one time, one, one

See us, we out here, living this life without fear  
I warm you up like a mug clear  
Throw niggas up, we straight here  
You can't even show your face here  
He asked for who, nigga wait there, nigga wait there,  
wait there  
I don't care if you got a problem, you told nigga then  
you not rocking  
I'm going hard, I'm not stopping  
For my daughter ain't nothing that I'm not copping  
I'm get money, I'm shit popping, these lame ass niggas  
just hip hopping  
My dick your bitch she lip locking

One time, the second time is gonna cost, cost me some  
money  
Hold a nigga one time, one time only  
Second time is gonna cost, cost me some money  
Telling me one time, one, one.
