Our world searching our heart  
The miracles of life remembers your name  
The beauty of Your face  
Whispers the same  
A treasure of love  
Sent from above  
Stay close to me

Our world searching our heart  
Our world keeps falling apart  
Our hearts searching for answers  
Pathways to see  
Wanting the angels  
Walking with me

Our world searching our heart  
A message of great hope  
A vision to find  
The wonders of your ways  
gentle and kind  
As morning breaks  
Our dreams will awake  
Stay close to me

Our world searching our heart  
Our world keeps falling apart  
Our hearts searching for answers  
Pathways to see  
Wanting the angels  
Walking with me
